

# Customised Hydraulic Power Packs

Capacity 2 - 200 HP, Flow rate up to 400 l/min

## Features

- Designed robust with good aesthetics and are easy to maintain.
- Efficient, leak-free valve blocks, hydraulic elements and electricals of reputed make to ensure trouble free operation.
- Options: Hand lever / Solenoid

## Hand Lever Operated

Pressure upto 350 bar

Pile Breaking

Girder Mould Form - Construction

Positions Tuyere handling trolley - Steel plant

Steel Mill Cylinder pressure testing

Crane cylinders testing

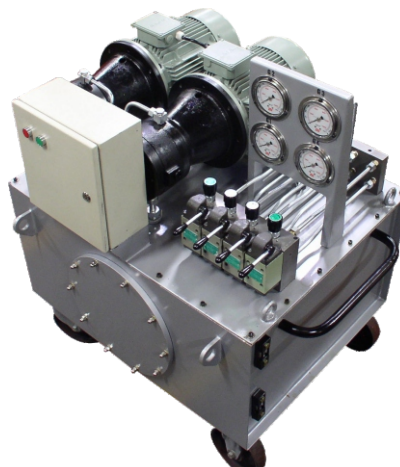

Sugar Mill Cylinder Testing

Pressure upto 700 bar

Jacking - Ship building / repairs

Synchro-lift (Split flow) - Pile Breaker

8 Station, heavy lifting

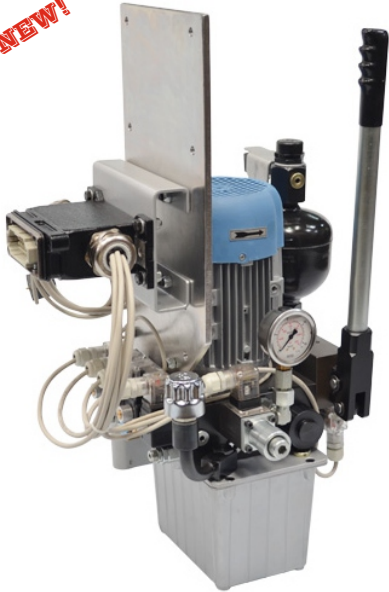

## Customised Hydraulic Power Packs

Capacity 2 - 200 HP, Flow rate up to 400 l/min

### Solenoid Operated

Pressure upto 350 bar

**NEW!**

Rotor Brake - Wind Mill

**NEW!**

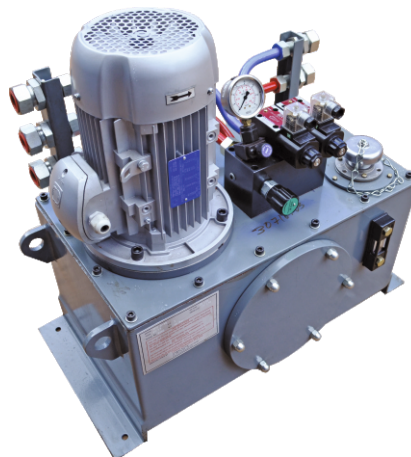

Yaw Brake - Wind Mill

Multi Strand - Wind Mill Tower

Boiler grates

Propel Mechanism - Crawlers

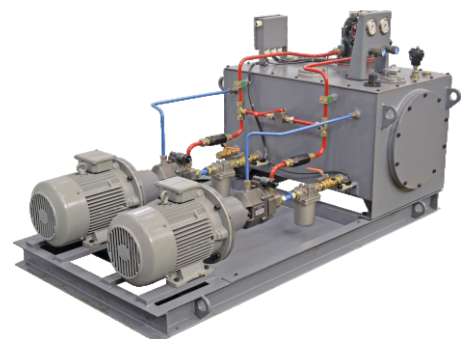

Riveting Presses

Fixture clamping

Fixture clamping

Sheet Stretching - Automobile

# Customised Hydraulic Power Packs

Capacity 2 - 200 HP, Flow rate up to 400 l/min

## Solenoid Operated

Pressure upto 350 bar

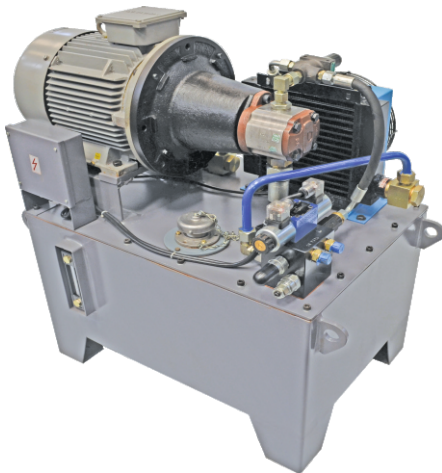

Production Presses

Filter Presses

Mould Forming

Broaching Machine

Lamination Curing Presses

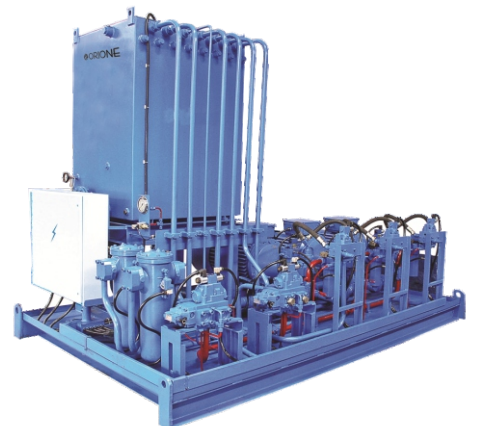

Dredger - Ship building

BARC - R&D

High Speed Moulding Presses

Slag Pot Car - Steel Plant

# Customised Hydraulic Power Packs

Capacity 2 - 200 HP, Flow rate up to 400 l/min

## Solenoid Operated

Moving Floor

Filter Presses

Filter Presses

Pressure upto 700 bar

Steel Mill Duty

Large Size Pipe Bending Machine

Strand Jack and Wedge lock Operation

## Pumping Units

Air oil cooler - CNC Machine

Air oil cooler - Truck mounted crane

## Dual Pressure (2800 & 700 bar)

Traction Motor Pinion Mounting and Dismounting
